

# Welcome to Millennial Junior

Dear Parent!

We are greatly excited to be launching the Junior School commencing 2021. We greatly sense the Lord prompting us to go this route as we endeavour to effect one of our values – the exercise of love and grace amongst us as a community. What better way to do it than to ensure the family unit is kept together as much as possible. We will therefore embrace younger siblings as they join their older ones. For that reason there is a preference for siblings on enrolment.

The model remains the same trusted one where we focus on unlocking value in each pupil you entrust us with through small classes. We have seen the effectiveness of this as individual needs are met and even the shyest of students boldly emerges and exhibits confidence. The 21<sup>st</sup> Century approaches we subscribe to unlock potential among our pupils.

**Christian education** As a member of the Association of Christian School International, we subscribe to collaboration and regular staff training in Paths to School Improvement (PSI) as we work towards accreditation. Our pupils benefit from a wealth of knowledge in effecting holistic morally upright training.

Another of our values is the **dignity and worth of every individual**. As we draw out the leadership potential in each one, our students learn tolerance in the multicultural setting. One of the worst social ills in our nation is the inability to accept difference yet God created us diverse in every conceivable way.

**Coding and Robotics** is a feature in digital literacy that will be taught from as early as Grade Three. The world is changing and failure to adapt to new challenges is a recipe for obsolescence. Millennial Juniors benefit from much research invested in implementing strategies through collaboration with Apple Education facilitated by Solutions Centre.

Plenty of opportunities are availed in discovery learning through **experiential learning and educational trips**. Pupils learn best when they actively participate and this is a key aspect of 21<sup>st</sup> Century teaching and learning methods incorporated in our mode of instruction. There is proven retention in this fun-filled learning mode that yields excellent results in concept mastery. A vibrant team is available to see to each child having an impactful learning experience.

1 Peter 2:9 NIV 'But you are a chosen people, a royal priesthood, a holy nation, God's special possession, that you may declare the praises of him who called you out of darkness into his wonderful light.'

**International collaboration** through the Connecting Classrooms Programme is effected through partnership with Selly Park Girls' School and West Heath Primary School in Birmingham, UK where best practice is shared. Students learn from a global mindset that further reinforces lessons in Global Perspectives. With our horizon becoming less and less distant our students learn from very early on the value that we are an integral component of the community we serve, the nation and the global scene and the interdependence critical for progress.

We offer a **predominantly Cambridge Curriculum** to prepare our pupils for the courses offered in the high school but include Agriculture and Shona from ZIMSEC. Our pupils then sit for the ZIMSEC exam at Grade Six and Cambridge Primary Checkpoint at Grade Seven.

**Co-curricular** is a vital aspect of holistic development in our pupils and a **variety of sports and clubs** are on offer to develop physical vigour as well as cultural awareness.

The full list of subjects on offer is below:

English Language	Mathematics	Shona
Agriculture	Digital Literacy	Art and Design
Music	Physical Education	Global Perspectives
Robotics	Science	

Our learners have the benefit of **specialised staff from the high school to team-teach** topics and bring variety to the learning experience. The Counselling Department is also available for the psycho-social support of each child so they can cope with the challenges of a rapidly changing world.

The **Google Suite** on which virtual lessons are hosted is already in place and our learners have no reason to miss school for any circumstance that is within means.

Join us on this exciting journey for yourselves your child as we partner to raise the next generation of world-changing leaders!

Faithfully

Ed Mudzimu  
(Principal)

**Kairos Encounters**  
**Millennium Academy**
